

Apprentice Tool List

These are all tools that are essential for the job as an apprentice. Please be sure to have these tools before your first day of work. As you gain more knowledge of the trade and experience you'll see that the more tools you have, the better. I added the links to the tools which I would recommend buying and are low cost but you are free to choose your own brand. Just keep in mind there is a reason some tools may cost more (they probably last longer and are more reliable)

Hammer drill/impact drill set

Drill bits

11-1 Screwdriver:
